Ms. Donna Martin
Falling Water Sounds
5830 47th Street
Lubbock, TX 79414

Dear Ms. Martin:

Thank you for considering using our grounds as a location for Falling Water Sounds' summer concert series. Mahomes Industries seeks to maintain an aesthetically pleasing campus for both our employees and the public to enjoy. We do not have a permanent grounds crew to provide routine cleanup of the exterior parts of the company campus. Using the park for multiple large public events would require the closing of the campus afterwards while clean-up is being done. Additionally, we do not have many of the facilities that many city parks have, such as restrooms.

For those reasons, we must deny your request for a concert series over the summer. We understand that Falling Water Sounds may have more difficulty finding a venue for the concert series, but we would like to continue the public enjoyment of our grounds on a smaller scale without any additional restrictions.

We would like to establish a relationship between you and Falling Water Sounds and while we cannot commit to the summer long concert series, I would like to discuss additional opportunities for collaboration with future events to bring live music to the families of our community.

Sincerely,

Joseph Muire
Public Relations Manager
